

# Critical Information Summary

Always \$23.90/\$29.90/\$44.90 Plan (Monthly)

## Information about the Service

### Service Description:

The E.Tel Always \$23.90/\$29.90/\$44.90 plans (Monthly) are post-paid, SIM only, mobile service plans has as Included Data allowance for usage within Australia of 30GB/45GB/80GB respectively, and Included Minutes for International Calls to Selected Countries\*\*\* of 200/300/350 minutes respectively. The service is provided via the Optus mobile 4G enabled network. **Please note usage details online and SMS notifications are according to data retrieved from the network which can have a delay of up to 48 hours for standard services items and more for other items such as International calls, roaming, satellite calls, etc.**

**Monthly fee** of \$23.90/\$29.90/\$44.90 is payable in advance. Additional charges are applied for any excluded calls and excess usage. Direct Debit via your nominated Bank Account or Credit Card is required.

**Billing Cycle** is from the first day of each month to the last day of each month. Customers pay their monthly fee on a pro-rata basis for the first calendar month, similarly, data allowance and voice allowance for the first month is also on a pro-rata basis.

**Minimum Term:** 1 Month.

**Change Plan:** You can request to change your mobile plan online at [www.etel.com.au/account](http://www.etel.com.au/account). New plan rate and fees will apply from the first day of the following month if your request is submitted before 15th of each month. Otherwise, the new plan will become effective on the first day of the next following month.

**Coverage:** Customers can only get 4G speeds with a 4G-ready phone (LTE 1800/850 MHz) in Optus 4G plus coverage areas as per the detailed map listed at [www.optus.com.au/living-network/coverage](http://www.optus.com.au/living-network/coverage). When customers are not within a 4G coverage area or their mobile handset is not 4G compatible, the mobile service will automatically switch over to 3G. When inside 4G coverage areas, the actual speeds vary due to the factors such as location, distance from the base station, user numbers, hardware & software configuration and download source/upload destination etc.
